

SPEND 20,000,000 FOR STATE ROADS

Governor Dunne Believes Counties of Illinois Will Appropriates This Sum in 18 Months.

TALKS AT DIXON CHAUTAUQUA

Federal Aid Act Appropriating \$85,000,000 for Highways. Copied From Illinois Law.

Dixon, Ill., Aug. 9.—In an address delivered here yesterday at a local chautauqua by Governor Dunne, Illinois' road problem was given a thorough review.

The governor called attention to the work done in Vermilion county with their bond issue of \$1,500,000; told of the highway conditions in Illinois; called attention to the provisions of the state aid road law and to the work which has been accomplished under it. The governor told his audience that Lee county could issue \$900,000 in bonds and the cost would be only 7½ cents per acre of land per year for 20 years and by applying their state aid allotment to the liquidation of one-half the bond issue the cost would be only 4½ cents per acre. Attention was called to the attitude of the counties in favoring bond issues for roads and a prediction was made that within 18 months elections will be called involving a total aggregate amount of \$20,000,000.

Speaking of the federal aid act, which appropriates \$85,000,000 as federal aid for highway improvement, Governor Dunne said: "It is both a compliment and a very encouraging fact that the United States federal government, in making provisions for spending \$85,000,000 upon the roads of the country as federal aid, patterned their statute after the Illinois state aid road law. The relation of the

states to the federal government, in the federal aid act is exactly the same as the relation of the various counties in Illinois to the state under our state aid law."

Improved Roads Gaining Favor.
In his concluding remarks the governor said: "Apply the fear that hard roads are going to bankrupt us is fast disappearing because we have been able to demonstrate by practical experience and by undeniable statistics that such a disaster is impossible."

"The pioneering has been done. Opposition based on fear and ignorance has been given place to satisfaction and interest. We have a law that is elastic and comprehensive. Our theory of state aid is correct in principle and workable in practice. In 10 years our position in the matter of public highways will be of fame rather than notoriety."

BAYONETS PRICK ROOKIE SOLDIERS

Scratched Hands and Torn Pants Result From "Close-Up" Fighting at Camp Dunne in Springfield.

"WAR" MANEUVERS ON SUNDAY

Four Platoons of Fifth and Sixth Regiments to Attack Imaginary Enemy at Rifle Range.

(Special to The Argus.)
Springfield, Ill., Aug. 9.—A bayonet is a mighty handy weapon in "close up" warfare.

It's not only handy but dangerous. "Rookies" of the Fifth and Sixth regiments discovered yesterday that a bayonet isn't to be treated carelessly even by the wielder.

Many scratched hands and torn pants followed bayonet drill at Camp Dunne yesterday attested to the fact that it takes practice to wield a bayonet according to military tactics without mishaps galore.

Four platoons forming a war strength company, from the Fifth and Sixth regiments will be sent to the rifle range at camp Lincoln next Sunday for "war" maneuvers.

Target Work Every Day.

Target practice has been the daily fare this week at camp, with a stiff drilling, both closed and extended order. Next Sunday in the war problems, the regulation army bullet will be used. Captain Patterson and Colonel Charles G. Davis of the Sixth will give a number of technical talks to the militiamen.

The Fifth regiment band gave its first concert last night. A bandstand was erected on the grounds in front of the grand stand.
